Objective

Seeking a full-stack development position where my high motivation, creativity, and desire to learn will enable me to make a real impact.

Technology Skills

HTML, CSS, PHP, JavaScript, MySQL, C#, Python, WordPress, GitHub

Education

Testing and Training International
Jun 2022 - Certified
Certification in Full-Stack Software Development
GPA: 3.9

College of Mount Saint Vincent
Aug 2021 - Graduated
BA: Psychology

GPA: 3.8

Experience

eyetraveldoc.com
Aug 2022
Rebuilt a WordPress website.
Worked with business owner to create a user-friendly website from a previous version. Updated themes and plugins to ensure complete client satisfaction. Used Google Maps API to create a dynamic view of business area. Currently working on creating this website from scratch (PHP, CSS) to meet client's needs

Projects

Eye Travel Website
PHP, CSS, JavaScript
Created website for a small company using mainly PHP. Responsive screen size and user-friendly layout.

Homework Schedule
PHP, MySQL
Worked with PHP and MySQL database to create a user-friendly homework schedule. Add assignments and due dates, and check them off when they are complete!

iminchinuch.org
PHP
Currently under construction, a Jewish calendar website that will update based on the current date and upcoming holiday.

Daily Schedule
JavaScript
Worked with JavaScript to create a daily schedule. Input tasks and watch them update!
